Protect Your Transmission Mile After Mile

Unfortunately, when your transmission goes, the car goes with it, at least until it's repaired or rebuilt, and that itself can cost an arm and a leg. There is a way to keep your transmission working at its best, year after year, and that's with regular transmission flushes from Triple T Car Wash & Lube.

We offer quality transmission flush services that come with synthetic and nonsynthetic options. Both are extremely effective and will remove grime, dirt, and build-up from the torque converter and cooler lines. Preventive maintenance is the key to maximizing your vehicle's performance and nothing is more important than ensuring that your car's transmission works optimally at all times.

Reducing Uneven Tire Wear

To prolong the life of your tires and improve the handling and stopping ability of your vehicle, we recommend having your vehicle's tires rotated every other time you get your oil changed. Specifically, the inside and outside edges of the tires in front-wheel drive vehicles are particularly susceptible to wear and tear. However, all-wheel drives can benefit from proper tire rotation as well.

By allowing the experts at Triple T Car Wash & Lube to rotate your vehicle's tires on a regular basis, the tire wear and tear will be reduced. Stop by our shop in Champaign from Monday through Saturday for a quick tire rotation. We're a member of the Champaign County Chamber of Commerce.

Protect Your Engine All Year Round

It may sound strange, but coolants play an important role in keeping your car's engine from overheating during summer and winter. At Triple T Car Wash & Lube, we recommend having your coolant flushed before the start of each season to ensure that your vehicle's engine is ready for the change in season.

We're here for you six days a week, so drop by our shop whenever you need a coolant flush service.

Improve Your Car's Overall Ride With One Visit

At Triple T Car Wash & Lube, we service front-, rear-, and four-wheel drive vehicles and can handle both front and rear differentials. This is important because your vehicle's drivetrain is responsible for sending power from the engine to your vehicle's wheels.

Unfortunately, there are many reasons why it may eventually fail to do so, but if you bring your vehicle into our shop for regular drivetrain service, your chances of having problems in that area will reduce considerably.

Visit us in Champaign for unbeatable drivetrain services and more.

Products & Services

Huge Inventory of High-Quality Parts

When you need replacement parts for your car, one quick trip to Triple T Car Wash & Lubewill solve your problem. You'll always be able to find exactly what you're looking for. We have an extensive inventory of high-quality parts from leading manufacturers like Mobil 1, RAIN-X, Meguiars, and so many more.

Drop by our shop from Monday through Saturday to pick up all the parts you need.

- Wiper blades
- Light bulbs
- Filters
- In-cabin filters
- PCV valves
- Cabin air filters
- Headlights
- Rain-X wiper blades
- Serpentine belts

Fleet Accounts

Keep Your Vehicles in Top Condition

Do you own or manage a business that has five or more vehicles? Are you interested in having a record of your fleet's entire automotive history? If so, the fleet program from Triple T Car Wash & Lube is your best option.

By partnering with us, you'll save money and frustration. Instead of not knowing what condition your vehicles are in and having them fixed as trouble arises, rely on us to monitor your fleet. We'll help to maintain and repair each vehicle. We take care of minor issues before they develop into major problems and will help to resolve costly problems that could otherwise bring your business to a halt.

Call Scott today at (217) 250-2441 to discuss your fleet account options.
